Coach Glenn Killingsworth: Now you see him, now you don't!

Head football coach Glenn Killingsworth resigned from his coaching position last week to take a job as assistant coach at Cal Poly Pomona. He came to Eisenhower in September.

"I was offered a job at the beginning of the new year," he said. "I really had to wrestle with the pros and cons, the plusses and minuses of Eisenhower and Cal Poly. The decision was very difficult."

Killingsworth said Poly head coach Jim Jones called him up and that he had not submitted any resumes. "With the chance for professional advancement, to teach and coach at the college level, I couldn't pass it up" he explained last week before he left.

Principal Jan Button said the move came as a surprise for many other teachers, including one who had said he had never really gotten to meet the coach because of the strike at the beginning of the year. "I was aware of his wonderlust per-

"I was aware of his wonderlust personality," said Button, referring to the risk be took when he had interviewed Killingsworth for the job at Ike.

Button called the coach "a very intelligent man", and said he was aware of his football prowess. "I also knew he'd been about five places in about five years," he added.

He will, though, said Button, be an asset wherever he goes. Reliable sources had told him that Killingsworth "wanted a chance to work with the college athlete... the college atmosphere"

the college atmosphere." Killingsworth said he felt that college is "...more tranquil, relaxed. They (the students and players) want to be there," he said.

The fact that the coach did not strike, and that others had, plus the fact there was no athletic trainer did not cause Killingsworth to leave. He said he had not met any strike resentment, "at least not face to face."

"I'm sure people will not understand, but all they have to do is ask face to face," he added.

At Poly, Killingsworth's position will be to coach the inside linebackers, but he has said earlier that he is experienced in many areas.

He said money had nothing to do with the move, for the pay will be about the same. Killingsworth left saying that the next two seasons would be excellent, particularly the second of those two years.

He also mentioned that the picks for all-CBL "...was a travesty and a joke.. an insult to the name of football." The former coach referred to the absence of Mitch Harris and Darnell Coles from the allleague team picked by the local press.

Though he had a recommendation, a strong one at that, he would not comment on just who maybe named as his successor.

Athletic director Roger Reupert and Button both said that no moves to fill the coaching vacancy have been made yet and that the process to get permission on who and how to hire would have to be given by the school board.

Senior AP English to continue

Senior advanced placement English will be offered second semester during fifth period as scheduled.

The decision to maintain the class was some time in the making however, as low enrollment was causing teachers and administrators to determine just how necessary the class was. Presently 14 students are en-

rolled in the AP English class, which is taught by George Foster and meets during fifth period. During November, Foster

second week of March.

has many additional features

elevator and the adult education center.

asked the class how many of them would probably take the course second semester. A show of hands reported that approximately four or five students were planning to enroll.

It was at that time that Foster went to Anna Rodriquez, English department head, admitting that he could not justify having a class with only four or five students.

This information was given to Principal Jan I. Button who then made the necessary arrangements to drop the class. When students in the class got wind of this news, several of them began recruiting some outside students who might be well suited for the class. A list of "hopefuls" was then drawn up and given to Button.

Jan. 18, 1980

The prospects were called in and asked by Button whether or not they still had plans for taking the class. Then questioned by the principal, however, only two of the students who could commit themselves.

Next several concerned parents called the school expressing their concern over the removal of the class since it is necessary for any student wishing to pass the AP test which can be taken this spring.

Superintendent Robert Williams also expressed concern with feeling that it was "a good class" and that it should be of fered to those "who were capable and willing to take the class."

Students presently enrolled in the class were again asked if they planned to take the class second semester, this time by Button. When asked for the second time all but two stated that they would be enrolling second semester making a second semester class possible.

Moore portrays the lead role of an accomolished songwriter named George Webber in the movie "10," an Edward Blake production. This delightful comedy shows what could happen to a man in pursuit of the most beautiful girl. Moore spies his perfect "10" on the way to her wedding, which

Moore later on manages to disrupt. The sight of this girl somewhat scrambles his usually distinguished and sane mind and leads Moore to a series of comical events which manage to disturb his life mentally and physically. The worst of such occurs after he visits the dentist and has six cavities, all of which are filled at the same time. He intoxicates himself on his prescribed pain pills, which leads him

to the home of his neighbor who has organized his almost daily orgy. Unfortunately for him, his girlfriend, a lovely theatre actress played by Julie Andrews, finds out and temporarily leaves him. Moore's vain efforts to contact her leads him to Mexico for a much deserved

In a plush resort on the Mexican resort, Moore runs into his "10," played by the beautiful Bo Derek, who is honeymooning with her aushand, Ironically, Moore manages to rescue her husband from a freak swimming accident and is lured to Derek's hotel room. But he becames somewhat disappointed and eyen more shocked when he finds out she isn't quite as nure and worldly as he had thought. He later tes amends with his girlfriend back in Los Angeles, tho

EE hits the flicks

(10") is a beautifully performed movie which its entire staff should be proud of. Dudely Moore makes the production worthwhile in one of his best performed pieces with his wit and humor. An Oscar should be waiting around the corner for him. by Mark Kaenel

Heartwarming love triangle ()

The "Three sides" to the love story of Kramer vs. Kramer is that between Billy and his father, Billy and his mother, and the movie itself and you.

This is not your typical "this could never happen to me but it did" story. Set in the intensity of New York is another mother who needs to "find herself," a somewhat baffled father and a son who eventually finds out he can't get away with everything.

Even the rough edges of the story are smooth. You can feel how tramer (Portrayed in an award-winning atomosphere by Dustin Hoffman) feels, his confusion, confidence and especially his love for his son. Meryl Streep, who plays the character of Joanna Kramer with a seldom seen stamina, enhances the feelings related throughout the

The ending (unfortunately) doesn't last forever. But perhaps comes too soon as they find a solution to the problem, thus leaving you simply-satisfied.

ing as theatres in this area showing Kramer vs. Kramer are sold out an hour to an hour and a half in advance the members of the academy and Hollywood showgoers are not the only ones who this movie "well done. by Barbara Dowling 3

former choker (that's choker, not smoker) and a team that made defense in football a passion greater than offense and cheerleaders. Yes, it will be those Rodney Dangerfields of the gridiron up against the Darlings of Steel City. They're more commonly

known as the Los Angeles Rams and the Pittsburgh Steelers. But rather than go into the details of Jack Lambert or Jack

Youngblood, or maybe the greatness of Lynn Swann, John Stallworth and Preston Denard, I took a quick poll of the back-table sports talkers on the EE staff along with some friendly adistrators and teachers.

AP class saved, it's a wise choice

Academic decency has been slowly disintegrating from our humble school in recent years.

However, the administration (Jan I. Button) has take one step to preserve one academic stronghold for at least one more semester. He has deemed it advisable to continue the advanced placement English class for seniors, even though the English department recommended it be dropped since fewer than a dozen students signed up to take it.

The decision to keep the AP class is a wise one, but it is only a beginning. Classes should be continued in all accelerated areas such as foreign language, math, and science for those students who desire the challenge, even though they may be few in number.

Likewise, students needing remedial work in order to pass the competency list the advantages of small classes as well. It is not fair that remedial or competency classes are extra large while advanced classes are extra small.

The only solution here seems to be to hire more teachers. There are competent teachers in the area looking for jobs, and this should be a top priority item in the district budget.

It is unfortunate that more of Ike's bright students do not choose to take accelerated classses but prefer instead to take the easy way out. It is often only after we enter college that we realize what we should have taken in high school.

We do not seem to get much encouragement from teachers and counselors to tackle the AP classes. Or perhaps we simply do not hear. How much easier it is to be content with mediocrity! Easier, that is, until college wakes us up!

Letters

(Editor's Note: In response to a letter from Eagle's Eye reporter Melba Clopton concerning the recent publicity on "hazing" at West Point, Lara Howard - EHS 79 grad - wrote the following letter.)

Dear Melba, First of all, good job on going to the extremes to get an interview! Now for answers to your questions.

Physically, I wasn't prepared for Beast (Cadet Basic Training). The summer was UNREAL! We vould run two to four miles a day, do 20 pushuns, climb mountains, I couldn't imagine myself doing some of the things. Imagine me wearing combat boots, a 50 lb. backpack, Army green fatigues, web gear (hold ammunition, first pancho, etc.), a combat helment and carrying a 9 lb. M-14 rifle! (Sorry, Mrs. Miller, no photos.)

After suiting up for a day of fun-filled combat training, we (my company of 120 guys and 12 girls) would march 10-15 miles, (written on paper 10-15 miles doesn't seem that long but think of 4-5 hours in N.Y.'s humidity and heat!) to a training site and run through the woods shooting blanks in our M-16's.

It was fun to actually fire our rifles and to throw grenades, but some things were the pits! The worst was when we marched 13 miles to Lake Frederick and set up little pup tents and had field training. It rained and rained.

Once you touch a pup tent, it leaks and it's all over. We spent five days and four nights there while it rained.

There were 130 girls who came on registration day and there are approximately 80 girls left in my class (1983) alone. At West Point there are about 4,300 cadets of

which only about 350 are girls. The "hazing" that was written about in the Sun-Telegram and hundreds of other papers when on at Camp Buckner where cadets their freshman year. after Actually the cadets were just having fun. We dress up in togas for spirit-raisers all the time. Some cadets (a girl and guy) decides to quit and wanted to make a big deal out of very little.

"Hazing" really doesn't go on that much anymore. About 20 years ago hazing meant something different than it does now. Then it was physical and very bad. Now to "haze" someone is to criticize them. For example: "Hey mister, halt! Your shoes are gross. You haven't shaved properly. Give me the days." (The "days" are how many days until Christmas, spring leave, gradution and a couple other important dates.) Fourth class replies: "Sir, there are 7 days until Army beats University of Boston at Michie Stadium in football ...

That is "hazing." Sure, I've been "hazed" in that fashion. It's all supposed to build character and make a cadet so that pressure doesn't bother him. At first I used to get all flustered when someone stopped me in the halls to yell at me, but now I just recite what they ask for and soon they get bored. It's all a part of training to be an officer.

West Point is just about what I expected ... only because my brother is at service academy (Luke Howard, U.S.S.F., class of '80. EHS '76 grad). I'm sure a lot of students are shocked at what they find when they get to West Point and find that it is very difficult.

I had to laugh when you asked what I do with my spare time. WHAT SPARE TIME? All W.P. cadets go to classes on Saturdays and on Sundays I usually relax and on Sundays I usually relax sleep and study. Usually Saturday nights I go out with friends to the dances or to a place called Ike Hall that serves beer and has music

One weekend I went with one of my two roommates to her home on Long Island and we had a pretty good time. I also went to Pennsylvania for the Army vs. Navy football game. So West Navy football game. So West Point allows me to see a lot of the Eastern United States and I do have fun between studving.

Finally, West Point does have its ups and downs. Some days I love it here and some days I could take the nearest airplane home. I guess what makes West Point so special is that it's a real challenge. The fourth class year can be compared to the things that college kids go through to get into a fraternity or sorority ex-

cept it goes on for a whole year. But once a cadet gets through his or her first year here then they are entitled to the benefits that upperclassmen get.

I hope I've put West Point in the correct light because it really is not that bad. Some things are and some things are not. You've got to take the bad with the good and all those other cliches. Take care of Mrs. Miller.

Sincerely, Lara Howard

We just had a meeting on how serious the bad publicity of the chicken and the KKK affair actually is so I must make one more comment. Both events were just for fun. W.P. isn't like that. The media just wants to get ahold of something juicy to print. It seems like whenever W.P. attempts any pranks like regular colleges we got bad publicity. They were just pranks.

OUR ROOTA has been Filled, +

Equal rights has become one of the largest and most controversial subjects in this country. The movement for the equal rights amendment (which is totally unnecessary, by the way) has become very big for many women. But another movement, a somewhat silent movement, has been established to advance another memeber of society to a higher" status - the minority.

Unfortunately, efforts toward the advancement of minorities have caused some problems for many Caucasians. Various agencies on almost every level of government have put forth an effort to place minorities in higher positions. The federally formed Fair Employment Practices Commission is an example, along with affirmative action branches of local governments. The NAACP is an example of a private organization. Under affirmative action, if a Caucasion and a minority both have equal qualifications, the minority will get the job. Many universities and businesses have quotas to determine on how many minorities will be hired or accepted, regardless if a Caucasian has better qualifications, which is, of course, wrong. Allan Bakke had this problem with the University of California

This all leads up to a problem within or school district. Our own Rialto School District has been mildly accused of violating civil rights. An article published by The Sun on Dec. 14, told that Rialto as one of 100 public school districts in the nation which are said to be the worst civil rights offenders. It was ranked 55, to be specific. This information was contained in a report by the Office on Civil Rights, Department of Health, Education, and

Welfare. The reason - the district seems to be spending too many minority students.

Stick it...

'where the sun

don't shine'

by Mark Kaenel

Statistics on Eisenhower High School suspensions from an Oct. 1978 report for HEW show the following facts, as Superintendent Robert Williams noted in the article. Ike's student population was 2,412, consisting of 1,427 whites, 450 blacks, 456 hispanics, and 40 minorities. Of those students suspended, 75 were white, 99 were blacks, and 44 were Hispanic. Percentage-wise, 22 percent of the black population was suspended, nine percent of the Hispanics were suspended, but only five percent of the white population were suspended. Or, of the 219 total suspensions, 44, or 66 percent, were minorities.

So, according to the Office of Civil Rights, we are in violation of civil rights. An appropriate response to this is that the Office should stick the report where the sun don't shine. Perhaps it didn't occur to them that minorities, with all due respect, happen to cause more trouble on campus than whites. What are administrators supposed to do, start a cam-paign to suspend more whites because not all suspensions happen to be created equal? Should we let the trouble makers roam the campus and suspend all of the whites? Of course not, because it would be reverse discrimination. Let's be sensible. The students who cause the problems should be suspended regardless of race.

The assistant principal's office isn't a place for aspending students to be segregated, but rather a place to be disciplined. It's hard to believe that a government organization would accuse Rialto as a civil rights violator. Perhaps they've really been reading up on the Fourteenth Amendment.
